BIG LOTTERY SCHEME

Claimed to Have Been Exposed at Chicago, Ill.

SEVERAL ARRESTS FOLLOW

Secret Service Men Claim that the Promoters of the Scheme Have Made Millions of Dollars Out of It. Big Men Behind It.

Chicago, Nov. 14.—A morning paper Wednesday morning says:

The biggest lottery in operation in the United States, which has been running for more than twenty years, with headquarters in Chicago, is claimed to have been exposed Tuesday by arrests in this and other cities of the country.

The United States secret service men claim that the promoters of the scheme have made millions of dollars and that there are big men behind it who will be reached through the prosecution of the men now under arrest.

Under the name of the Old Reliable Guaranty Loan and Trust company, it is alleged, the lottery maintained three luxuriously furnished offices in Chicago.

D. H. Jones, alias D. H. Kissam, who has lived in very expensive style, is head of the concern. John E. Minor was arrested as a partner. Minor claimed to be in the real estate business. Warrants were issued for Miss Cora Green, the confidential secretary of Jones, and Walter Schimbky, the bookkeeper, at the local headquarters.

At midnight Jones, Minor and Miss Green were arraigned before United States Commissioner Mark Foote. G. H. Geisler, the St. Louis agent of the concern, was arrested in that city, and a large number of lottery tickets and records confiscated. Charles and Royal Hammer were arrested at Indianapolis.

An attempt will be made to involve the express companies all over the country as agents or accomplices under the act of 1895, forbidding the operation of lotteries.

Commissioner Foote held Jones without bail. Jones is more than 70 years old and very feeble.

SOUTHERNER FOR PRESIDENT

Democrats of Tennessee Have Inaugurated Movement.

Nashville, Tenn., Nov. 14—A state convention of democrats here Tuesday inaugurated a movement for the nomination of a southern man as democracy's candidate for the presidency in 1908. Each delegate was instructed to work in the interest of sending a delegation from Tennessee to the national convention that would vote first, last and all the time for a southern man, and an address to the democracy of the nation was issued.

Only one name—that of former Governor James D. Porter—was mentioned in connection with the nomination. This was greeted with applause, but Governor Porter, chairman of the convention, refused to countenance a discussion along such lines.

Woodrow Wilson, president of Princeton university, was invited to address the convention, but declined. Governor Patterson was a speaker, and expressed hearty sympathy with the movement.

Fatal Boiler Explosion.

Pine Bluff, Ark., Nov. 14.—News has reached here that a boiler at a gin house of the Trulock plantation, 7 miles south of Pine Bluff, exploded Tuesday morning, killing J. R. Trulock and five negroes and demolishing the gin. Trulock was one of the most prosperous farmers of this county and was a brother of N. B. and Marshall Trulock, of this city.

Well Known Educator Dead.

Birmingham, Ala., Nov. 14.—J. B. Cunningham, principal of the Birmingham High school, and one of the best known educators in the state, died here Tuesday morning after an illness with typhoid fever. He was a brother of former Lieutenant Governor R. M. Cunningham. He leaves a widow and three children.

AFTER SENATORSHIP.

Race in South Carolina Promises To Be Warm One.

Columbia, S. C., Nov. 14.—A bombshell was thrown into the political arena of South Carolina Tuesday when the Hon. O. B. Martin, the present state superintendent of education, announced his candidacy for the United States senate to succeed the incumbent, Senator A. C. Latimer, whose term expires March 4, next.

Mr. Martin has been in the limelight because of various and sundry letters he has written Governor Ansel because that official has taken it upon himself to name two men for the state board of education without consulting Mr. Martin as to their capabilities, although the gentlemen named—one an ex-governor and distinguished lawyer, and the other also well versed in the law and matters educational.

Although Mr. Martin made the amende honorable for the first of his letters to Governor Ansel, shortly afterwards he followed it with a second along the same lines, in which he announced that he would not again stand for re-election as state superintendent of education. At that time it was thought that Mr. Martin was out of politics, but not so.

Mr. Martin, who is a good stump speaker, and makes friends with the "crowd," in his announcement for the senate says that he has reason to believe that Governor Ansel himself will be a candidate and if so he will have an opportunity to thresh out his differences on the stump.

The senatorial race is beginning to warm, and before the entries have closed, it is expected that the field will be a large one.

MRS. BRADLEY'S TRIAL.

Celebrated Case Which Was Postponed Again Resumed.

Washington, Nov. 14.—The trial of Mrs. Annie M. Bradley, charged with the murder of former U. S. Senator Bowen, of Utah, was resumed on Wednesday in district circuit court No. 1. The case had been postponed from last Monday, when it was called for the first time, until Wednesday, on account of the death of Justice E. McComas, of the court of appeals of the District of Columbia. She made her apearance promptly, and was once again the general object of attention.

As on Monday, the court room was crowded, and much attention was manifested in the least important details connected with the case.

Among those present were the 26 jurymen belonging to the regular panel, and soon after the beginning of the session, the court began the selection of the twelve men before whom the facts will be presented.

Within the last few days the company has nearly doubled its usual shipments of gold and silver to the mints.

The usual daily shipments have been 45,000 ounces of silver and 15,000 ounces of gold. Now the shipments are 100,000 ounces of gold and 30,000 ounces of silver daily.

New York, Nov. 14.—News has just reached theatrical circles here that Anna Held is critically ill of pneumonia at the Hotel Majestic in Philadelphia, and that the engagements of the "Parisien Model," of which she was the star, have been cancelled. Miss Held was taken ill last Thursday night, when she was found lying unconscious in her dressing room at the theater. Pneumonia, it seems, developed on Saturday.

"IN GOD WE TRUST"

President Roosevelt Opposed to Putting Words on Coins.

COMES NEAR TO SACRILEGE

President Writes a Strong and Sensible Letter in Which He Gives His Reasons for Leaving Motto Off of the New Gold Coins.

Washington, Nov. 14—In answer to one of the numerous protests that have been received at the White House against the new gold coins which have been coined without the words "In God We Trust," President Roosevelt has written a letter, which he has made public. The letter follows:

No Warrant for Its Use.

"When the question of the new coin came up, we looked into the law and found there was no warrant therein for putting 'In God We Trust' on the coins. As the custom although without legal warrant, had grown up, however, I might have felt at liberty to keep the inscription had I approved of its being on the coinage. But as I did not approve of it, I did not direct that it should again be put on. Of course, the matter of the law is absolutely in the hands of congress and any direction of congress in the matter will be immediately obeyed. At present, as I have said, there is no warrant in law for the inscription.

"My own feeling in the matter is due to my very firm conviction that to put such a motton on coins, or to use it in any kindred manner, not only does no good, but does positive harm, and is in effect, irreverence, which comes dangerously near to sacrilege. A beautiful and solemn sentence such as the one in question, should be treated and uttered only with that fine reverence which necessarily implies a certain exaltation of spirit. Any use which tends to cheapen it, and above all, any use which tends to secure its being treated in a spirit of levity, is from every standpoint profoundly to be regretted. It is a motto which it is, indeed, well to have inscribed on our great national monuments, in our temples of justice, in our legislative halls and in buildings such as those at West Point and Annapolis—in short, wherever it will tend to arouse and inspire a lofty emotion in those who look thereon. But it seems to me eminently unwise to cheapen such a motto by using it on coins, just as it would be to cheapen it by use on postage stamps, or in advertisements.

"As regards its use on the coinage, we have actual experience by which to go. In all my life I have never heard any human being speak reverently of this motto on the coins or show any signs of its having appealed to any such emotion in him, but I have literally hundreds of times heard it used as an occasion of, and incitement to, the sneering ridicule which it is above all things undesirable that so exalted a phrase should excite. For example, throughout the long contest extending over several decades on the free coinage question the existence o fthis motto on the coins was a constant source of jest and ridicule, and this was unavoidable. Every one must remember innumerable cartoons and articles based on phrases like 'In God We Trust,—for the eight cents,' 'In God we trust—for the short weights,' 'In God we trust—for the 37 cents we do not pay,' and so on and so forth.

"Surely I am well in bounds when I say that a use of the phrase which invites constant levity of this stripe is most undesirable. If congress alters the law and directs to replace on the coins the sentence in question, the direction will be immediately put into effect. But I very earnestly trust that the religious sentiment of the country; the spirt of reverence in the country, will prevent any such action being taken.

(Signed) "Theodore Roosevelt."

Alabama Town Burned.

Montgomery, Ala, Nov. 14.New Brecton, Ala., a small place on the Atlantic Coast Line, was almost wiped out by fire Sunday night, the loss being $40,000, with little insurance.

DENTAL STUDENT SUICIDES.

T. N. Palmer, In Fit of Despondency, Ends His Life.

Atlanta, Nov. 14.—"I am going to hell. Going, went, gone. T. N. Palmer."

This is the postscript which concludes a letter left upon the table in his room by T. N. Palmer, a dental student, who ended his life at the Williams House No. 2 some time Tuesday morning by sending a ball from a 38-caliber pistol into his brain.

The suicidal act of Palmer was done in a fit of despondency which, it is said, came at the end of a protracted drunk, which had lasted for more than a week. Though the fatal shot was fired some time during the morning, it was not discovered until the chambermaid of the hotel went to the room at about 2 o'clock in the afternoon and found the door locked. The clerk was notified, and some time afterward went to the room, but on knocking failed to receive any response. A ladder was brought and on looking over the transom the body of Palmer was seen lying in bed with a wound in the right temple from which the blood was flowing and a pistol was clutched in his right hand.

Palmer, who is about 25 years of age, was a senior at the Atlanta Dental College. His family live in Augusta, where Palmer is well known. His remains were sent to Augusta for interment.

Both made short statements and pleaded for mercy. Judge Hundley stated in Ragan's case that since he has been judge he has never given the extreme penalty, but that he would have to do so in this case.

2 KILLED, 4 INJURED

Terrific Explosion In Nitro-Glycerine Factory.

Columbus, O., Nov. 14.—Two men were killed and three or four injured Wednesday in an explosion [illegible] cules nitro-glycerine factory at [illegible]nor, Wood county.

The factory was demolished and a number of houses shattered in the town.

The concussion of the [illegible] plosion was felt for sixty miles around.

The following were killed:

W. C. Cisco and John Washburn, employees of the factory.

TURNED COUNTERFEITER.

Wanted Funds to Finance His Airship Invention.

New York, Nov. 14.—Herman Hensee who was arrested at a cabin in the Ramapo mountains, where he was engaged in counterfeiting half dollars, admitted to the secret service officers who captured him, that he was a counterfeiter, showed them with some pride the dies and machinery he had made, and gave rather a remarkable explanation of why he had embarked on a counterfeiting career.

Hensee asserted that he had resorted to counterfeiting to provide funds for the building of an airship which he has perfected and which is to solve the problem of aerial navigation. He had turned his hand to die making, Hensee said, only after every other means of financing his invention had failed him, and without any special preparation for the work of engraving and casting.

Hensee's coins, made from Mexican silver pieces, contained the required amount of the precious metal and would never have been known as counterfeits from the weight. The fact, Hensee asserted, relieves him of any moral wrong, although he admits he may be technically guilty. The profits on his product were about 40 cents on each coin.

STATEMENT FROM DR. JONES.

Says Emphatically General Thomas Applied for Commission.

Richmond, Va., Nov. 14—Considerable interest has been aroused in the city of Richmond over the assertion that General Grant at one time offered his services to President Davis of the confederacy. The Rev. Dr. William J. Jones, chaplain and historian of the confederacy, said that he had knowledge of either Grant or Thomas having made such an application.

"There can be absolutely no doubt, however," continued Dr. Jones, "in the case of General Thomas. I have published the matter time and time again and will state most emphatically that I have in my possession a letter from General George H. Thomas which admits that at the time of the secession he applied for a commission to enter the confederate service."

GAINESVILLE PEOPLE WITH WEAK LUNGS NEED VINOL

Many people inherit weak lungs which are likely to be attacked by consumption. So also are lungs weakened by disease or by a stubborn hacking cough.

No matter what the cause, Vinol strengthens weak lungs and gives one the power to throw off wasting diseases.

The reason that Vinol has such power to heal and strengthen is because it contains in a highly concentrated form all of the curative, medicinal and strength-creating elements of cod liver oil, actually taken from fresh cods livers, with the useless, nauseating oil eliminated and tonic iron added.

So sure are we of what Vinol will do that we ask every person in Gainesville suffering from weak, stubborn hacking coughs or any wasting disease to try Vinol on our offer to return money if it fails.—W. M. Johnson, Druggist, Gainesville, Fla.

Doyle in a New Role.

Fred Doyle spent yesterday in this city. Mr. Doyle is one of the most widely known traveling men in this section of the State, where he is very popular. So successful was he as a salesman for the Cudahy Packing Company that he was placed in charge of the Jacksonville branch as manager. This position he held until a few months ago with credit, but the fascination of life on the road was too great, hence he accepted a position as a special representative of the Burroughs adding machine, which position he has filled with great success.

Fred is a hustler in all the word implies, and his reports show that he already stands at the top notch of a long list of salesmen from every section of the country.

BURNED TO DEATH.

Atlanta Woman Succumbs to Burns Received Monday Last.

Atlanta, Nov. 14.—Mrs. Katie Morgan, 26 years of age, the wife of T. E. Morgan, a well known Western Union man, died Wednesday morning as result of burns received last Monday.

About half past 10 o'clock Monday morning, Mrs. Morgan was sitting by the fire, reading the newspaper, while her 5-year-old daughter was playing in the room. In some way the clothing of Mrs. Morgan caught fire. It is thought that one of the papers took fire and in that way the fire was carried to the clothing. Mrs. Morgan was intent upon what she was reading, and before she was conscious of the fact that her dress was on fire the flames had reached to her knees. So rapidly did the flames feed on the light skirts that she was horribly burned before they could be extinguished. The little daughter, Katherine, seeing her mother's plight, made heroic efforts to extinguish the flames, and in so doing was herself painfully, though, fortunately, not seriously burned.

When the fire was extinguished and the physician called, it was found that Mrs. Morgan was so terribly burned that an attempt to remove her to a hospital would most probably result in death. Suffering horribly, Mrs. Morgan lingered at her home, 163 South Forsyth street, until early Wednesday morning.

WANTS $25,000 DAMAGES.

Stockholm Financier Plantiff in Quite a Novel Suit.

Berlin, Nov. 14.—The administration of the German state railway has been made the defendant in a novel suit, brought by a Stockholm financier who was injured in the wreck near Bremen last December.

The plaintiff was enroute to Paris for the purpose of concluding a business deal involving $5,000,000, but his injuries required him to remain in a hospital for six weeks. Meantime, his French client died, thus ending the chance for the deal. The railway authorities refused the Stockholm man any financial restitution, and he has now sued them for $25,000 damages.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50-cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease. J. W. McCollum & Co.

STOMACH IS SEAT OF HUMAN LIFE

New Theory Advanced by Young Man Is Spreading Over Entire Country.

L. T. Cooper's theory concerning the human stomach, which he claims to prove with his new medicine, is being given more respect and comment every day.

Cooper claims that 90 per cent. of all ill health is due to stomach trouble. When interviewed about his theory recently, he said: "Stomach trouble is the great curse of the 20th century so far as the civilized races are concerned. Practically all of the chronic ill health of this generation is caused by abnormal stomachic conditions. In earlier days, when the human race was closer to nature, and men and women worked all day out of doors, digging their frugal existence from the soil, the tired, droopy, half-sick people that are now so common, did not exist.

"To be sure, there was sickness in those days, but it was of a virulent character, and only temporary. There was none of this half-sick condition all the time with which so many are afflicted nowadays.

"I know positively that every bit of this chronic ill health is caused by stomach trouble. The human stomach in civilized people today is degenerate. It lacks tone and strength. This weakness has gradually come through a sedentary existence. I further know that few people can be sick with the digestive apparatus in perfect shape. The sole reason for my success is because my New Discovery medicine tones the stomach up to regular strength in about six weeks' time. That is why I have had more people come and thank me wherever I have gone to introduce my medicine, than I have had time to talk with."

Among the immense numbers of people who are now strong believers in Cooper's theory and medicine is Mrs. M. E. Delano, a prominent resident of the suburb of Brookline, Boston, Mass. She says: "For several years I was broken in health, caused primarily by stomach and nerve troubles. I gradually became worse, until recently I was compelled to go without solid food for days at a time. I had sour stomach, palpitation of the nerves of stomach and heart, dyspepsia, and extreme nervousness. I suffered terribly with insomnia, and my liver, bowels and whole system gradually became deranged. I felt instant relief the first day I began this Cooper medicine. I now feel like a new being. Today I walked all over town, shopping—something I have not done for years.

"I make this statement wholly from a sense of duty. I feel I owe it to anyone who might find relief and renewed happiness as I have done."

The record made by the Cooper medicines is astonishing. We will take pleasure in discussing it with anyone who wishes to know about them. —J. W. McCollum & Co.

Mississippi Town Burned.

Collins, Miss., Nov. 14.—Fire wiped out almost the entire business section of Collins Tuesday. The town water supply was cut off while the machinery was undergoing repairs. A high wind prevailed and drove the flames away from other parts of town that were in danger. No definite estimate has yet been placed on the loss, but it is believed it will amount to about $75,000.

THIS DAY WAS SET TO LIQUOR

So It Appears From the Docket of the Circuit Court.

EVERYTHING WAS WHISKEY

Five Defendants Arraigned, Which Took Up the Time of the Court During the Entire Day—Every Defendant Convicted at Profit to County.

The fourth day of the circuit court opened promptly on time, at 9 o'clock Thursday morning, Judge Wills presiding.

From the record of the docket, it would appear, it was a day when all alleged offenders of the liquor law were to be arraigned, as every case brought before the court during the day was a case in which the defendant was charged with selling liquor in a county which had voted against the sale of same.

The first case called was that of the State vs. Nancy Harris, selling liquor in a county which had voted against the sale of same. Defendant was arraigned and pleaded guilty, when the prisoner, a colored woman, was released upon her own recognizance, subject to the order of the court.

The next case called was State vs. Steve Clayton, the charge being selling liquor in a county which voted against sale of same. The defendant was arraigned, pleaded not guilty. A jury was called and sworn, evidence submitted, and a verdict returned of guilty.

Thomas Jackson, selling liquor in a county which had voted against the sale of same. Defendant arraigned and pleaded not guilty. Jury called and sworn, evidence submitted, and verdict returned of not guilty.

State vs. Moses Johnson (an old offender), selling liquor in a county voting against the sale of same. Defendant arraigned and pleaded not guilty, but a jury found him otherwise.

State vs. Phillip Johnson, selling liquor in a county which had voted against the sale of same. Defendant arraigned and peladed not guilty. Jury called and sworn, evidence submitted, and jury returned a verdict of guilty.

During the session of the court the grand jury came into open court and returned three true bills.

In the presence of the court and the clerk and sheriff, the Judge drew from the box the following names, who are to serve as jurors for the coming week, beginning Monday:

James Collins, L. P. Tillman, T. M. Cauthen, C. C. Drummond, W. H. Jones, Henry Davis, W. A. Strickland, M. H. Slaughter, G. H. Gibbons, H. C. Parker, C. M. Beech, F. M. Coleman.

The clerk was instructed to issue a venire for the above, after which court adjourned until 9 o'clock Friday morning.

BOTTLE MADE LONG JOURNEY.

Dropped in the Ocean Off the Florida Coast Drifts Across the Atlantic.

Chicago, Nov. 14—Gustav A. Mueller, a tobacco importer of Chicago, dropped a bottle containing his card and the name of his friend, J. C. Paul, into the ocean midway between Key West and Havana, February 9, 1906. He wrote on the back of his card: "Finder of this card will receive a box of Havana cigars, provided he returns same to me." Mr. Mueller received a letter from T. Frampton, Gordon Road, Winchester, Hantshire, England, saying he had found the bottle on the beach midway between the Isle of Wight and Hengistsbury Head on Oct. 1.

Fatal Game of Cards.

Valdosta, Ga., Nov. 14.—Coroner Nelson was called to upper Jasper, at Waters bridge, Tuesday, to hold an inquest over the body of Edward Parker, who was killed by Sam Bates Wednesday morning early. Waits and Parker were in company with another white man named Parker, and a negro, had been playing cards, and stopped in an outhouse to play cards. A dispute arose between them, whereupon Bates shot Parker with a gun, and shot at Parker as he ran out at the door.

Did His Best.

"My goodness!" exclaimed an anxious mother. "What in the world made your face so dirty, Willie?"

"Johnny Jones and me had a fight," explained Willie, "an' he throw'd more dirt in my face than I could swaller."—Home Magazine.

$20,000 LOST FROM STAGE.

Money Intended for Paying Miners Mysteriously Disappears.

Trinidad, Colo., Nov. 14.—Checks and currency to the amount of $22,000 intended to pay the wages of the Carbon Coal and Coke company's miners at Cokedale, were lost or stolen Tuesday afternoon while in transit in stage from the Longsdale railroad station to the camp, a distance of only two miles. Charles Macomber, driver of the stage, was arrested on suspicion, but he declares he knows nothing about the supposed theft. The money package had been thrown with other express matter into the stage.

Abraham Thompson, the paymaster, accompanied by James Williams, a guard, left here at dusk to drive to Cokedale, the biggest camp operated by the company. The money, which was in two canvass sacks, was placed under the seat.

Thompson says they encountered no one enroute to the camp, but when they arrived at Cokedale, and the miners had formed in line to receive their pay, it was discovered that the money was missing.

Thompson and Williams immediately retraced their tracks for several miles, but found no trace of the thief, and returned to Cokedale, where they notified the sheriff by telephone.

Some of the miners engaged horses and rode over the surrounding country, but met no suspects.

Dancing Proves Fatal.

Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. J. W. McCollum & Co.

Solons Asked to Stop.

Montgomery, Ala., Nov. 14.—At a mass meeting of railroad men called from all parts of the state Tuesday night the legislature was urged to desist from further attempts to pass laws that may do any business having special relation to the proposed railroad acts. The resolution adopted requests the members to refrain from the passage of additional legislation at this time affecting the business interests of the state."

COSTS $25,000 TO RAISE A BOY

Great Expenses of Having Children Causes Decrease in Births.

It is not only the tenement landlord who discourages children, says The November Delineator.

Side by side with the landlord marches the economist, with frightening figures, in this crusade against children. It costs upper-middle-class parents twenty-five thousand dollars to raise a boy, and half as much to raise a girl, so says Professor John Graham Brooks, of Harvard. Just to get the tiny garments ready, to pay the doctor and nurse, and launch the little life, costs, someone else has figured, from ninety-five dollars in some small Western towns to four hundred and fifty dollars in lavish New York.

"It costs too much to have a baby here," said a dusky mother of six—five little Italys and one Young America. "In my country the doctor come for one dolla. For this baba I pay twenta-five."

Nor is the money cost the only charge counted against the baby. There are many other items that swell the bill.

"I would give ten years of my life for two boys like yours," said a childless woman earnestly to a mother.

Quick and incisive came the reply: "That is just exactly what you would have to give."

PLAN TO FIGHT DISEASE.

Druggists Will Battle Stomach Trouble in Gainesville.

The increase of stomach troubles in Gainesville has led J. W. McCollum & Co. to take effective measures to combat the disease.

They have the local agency for Mi-o-na stomach tablets, and in order to induce people suffering with weak stomach or indigestion to use the remedy, offer to supply it with the distinct understanding that money will be refunded in every case where it does not cure.

Mi-o-na is not a mere digestive, but an absolute strengthener and builder-up of the whole digestive tract. If you suffer with headaches, giddiness, palpitation, bad taste in the mouth, nervousness, coated tongue, distress after eating, use Mi-o-na and see how quickly these symptoms of a weak stomach will disappear.

The remedy strengthens the muscular walls of the stomach and increases the flow of gastric juices so that nourishment is extracted from the food and the refuse is expelled without the aid of purgative or laxative medicines.

Remember that J. W. McCollum & Co. give a guarantee to refund the money unless it cures. They take all the risk, and there is no danger of your losing anything except indigestion when you buy a 50-cent box of Mi-o-na.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by W. M. Johnson.

Many Employes Laid Off.

Chicago, Nov. 14.—Large reductions in working forces in many industries in Chicago have been made within the last few days owing directly to scarcity of orders and business depression. Several hundred men were laid off Tuesday in various woodworking establishments. Nearly 1,000 machinists in Chicago are idle and the railroads west of Chicago have laid off an extra gang of 25,000 men employed in construction work, maintenance of way and in the mechanical departments.

Boston Lawyer Dead.

Birmingham, Ala., Nov. 14.—J. M. McMaster, aged 46, and a bachelor, died at Boston, where he had practiced law the past ten years after practicing about the same length of time in Birmingham. The remains were taken to his former home in Columbia, S. C.

REXALL

REMEDIES
HAVE ARRIVED IN TOWN.

No doubt you have heard of them. They are used by several millions of people throughout the United States, and we sell them to you with a guarantee that if they are not what we claim we will gladly refund your money. One remedy for each human ill.

Some three years ago a number of prominent retail druggists — realizing that a big change was to be made in the proprietary medicine business, that the public demanded to know what the ingredients were of the preparations they were advertising, and that a general reform was about to take place in proprietary medicine manufacturing and advertising — formed a co-operative company to meet the public's demand. This company was called The United Drug Co., of which the undersigned has become one of the two thousand members.

Our object was, first, to manufacture a line of prescriptions such as we had tried out in our stores and found to give the very best of results; and second, by owning our own co-operative manufacturing company we would be able to know the exact formula of every preparation we were selling, thus enabling us to give to the public the very best remedies we could find at actual manufacturing cost, plus a single retail profit.

This enabled The United Drug Company to escape the heavy charges for advertising and other expenses such as have to be paid by proprietary remedies. What was most important, it insures safety and satisfaction to our customers, because we druggists know just what we are selling.

A committee of experts was appointed who spent a long time in testing the merits of more than two thousand formulas and prescriptions recommended by the various druggists constituting the company.

From these, about ***two hundred*** were selected as being the ***best remedies known to medical science*** for the cure, each of its particular ailment.

The exclusive rights to these remedies were then transferred to The United Drug Company, which has since manufactured them in its superbly equipped laboratories in Boston under the now famous name of "The Rexall Remedies."

The United Drug Company, which manufactures the Rexall Remedies, has already scored the greatest success ever known in the history of the drug business.

Note, then, first of all, these facts:

1st. "Rexall" refers not to *one* remedy, but to about ***three hundred*** — each for some one particular purpose. Nobody knows better than The United Drug Company druggists the absurdity of the "cure-all."

2d. Each "Rexall" Remedy is a ***tested and proved*** success, selected for its conspicuous merit from many of its class. All had established reputations through their continued use by physicians before they became members of the "Rexall" family.

3d. "Rexall" Remedies are sold at low prices because they are free from heavy manufacturing charges, jobbing profits, and the heavy expense of being advertised ***separately,*** as formerly.

Three of the 300 "Rexall" Remedies, one for each human ill, are:

FOR CATARRH — MUCU-TONE

The chief ingredients of Mucu-Tone are Gentian, Cubebs, Cascara Sagrada, Glycerine, and Sarsaparilla.

Gentian is recognized in medicine as one of the greatest tonics ever discovered. It is the foundation on which Mucu-Tone is built. Gentian combines in high degree the tonic powers of all the known "bitters," with none of the disadvantages applying to them.

Cubebs have long been recognized as a specific in the treatment of all catarrhal conditions. Its action is prompt and its benefit almost invariable. In whatever part of the body the inflamed or diseased condition of the mucous membrane exists, the use of Cubebs has been recommended by the best physicians for many generations.

Cascara Sagrada is especially introduced for its necessary laxative properties.

The combination of these with Glycerine and Sarsaparilla makes Mucu-Tone a remedy that attacks catarrh from every point, gradually restores and rebuilds the diseased tissues to their former health and strength, promotes digestion and creates a normal appetite.

Bottle, 50c.

FOR NERVES — AMERICANITIS ELIXIR

The Rexall Americanitis Elixir is a tonic nerve food composed chiefly of free Phosphorus, Glycophosphates, Iron Pyrophosphate and Calisaya.

The wonderful results of this remedy are due to the fact that it supplies Phosphorus to the nerve cells in a condition in which it can be immediately and easily taken up by them. It is the only known preparation in which free Phosphorus — that is, Phosphorus which remains indefinitely unoxidized — is used.

The Glycophosphates, actual nerve-tissue builders, are one of the most recent and valuable additions to the field of this branch of medicine and unquestionably a more efficient remedy than the well-known Hypophosphites.

The Iron Pyrophosphates is the most easily assimilated form of iron which gives tone and color, and the combined alkaloids of Calisaya Bark have a tonic effect on almost all the functions of the body.

In compounding these various elements, the very highest degree of pharmaceutical skill has been employed. 75c. and $1.50 a bottle.

EXALL "93" HAIR TONIC

The famous Rexall "93" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin.

Resorcin is one of the latest and most effective germ-killers discovered by a science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the lodgment and development of new germs.

Pilocarpin is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye — it produces its effect by stimulating the scalp and hair follicles to health and active life.

This combination of curatives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known to-day. Bottle, 50c.

"Rexall" Remedies are found only in the stores of druggists affiliated with The United Drug Company — only one in each town and each backs up this "Rexall" guarantee printed on every package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you, and we want you to have it."

WASHINGTON CORRESPONDENCE.

Washington, D. C., Nov. 14.—The result of the elections shows the general trend towards Democracy, and in a great measure indicates a Democratic victory next year. New York and New Jersey will be the great battle ground, with the result depending upon the independent vote in both States. The question of an attractive Presidential candidate to appeal to those independent voters will be paramount when both the conventions of the great parties meet. At the same time the feelings of the rank and file of both parties must be considered by the political managers, for neither party can afford to have any serious schism to cause a loss of votes, so the nominees and the platforms must be generally approved by the regular party followers. Such conditions will put the party managers to their trumps, and should result in both conventions nominating their most available men, instead of the successful factions riding roughshod over the other faction. The defeat of Congressman Burton by Tom Johnson will help to eliminate Taft and aid the Foraker faction in Ohio. It will also bring Tom Johnson to the front as a possible candidate for President upon whom the Democrats can unite. How the party leaders in New York, New Jersey and other doubtful States would view Tom Johnson as the candidate it is too early to decide. He may be thought too radical in some of his views, but there is not much doubt that the great mass of Democrats everywhere would rally to his standard, if they arrive at the conclusion he can best unite the party. Tom Johnson is friendly with Mr. Bryan, although he does not endorse Mr. Bryan's view of the necessity of Government ownership of railroads, but is an ardent advocate of municipal ownership of public utilities. He is a single taxer and a free trader in theory, but uses his efforts for equal taxation of all alike. Tom Johnson believes faithfully in that good old Democratic doctrine of "equal rights to all and special privileges to none."

Congress will meet in less than a month and we may expect every member to be leaded with one or more speeches on the financial issue. All will have a panacea for panics, and but few agree on details for further inflation of the currency, whether of the "asset" or "secured" variety. The coming session of Congress will be more devoted to oratory than to the passage of remedial legislation for the ills that Republican policies have forced on the country.

The panic has had such a sobering effect on President Roosevelt that he is re-writing that portion of his message which relates to the finances and corporations. He has conferred with the steel trust magnates about those matters and it is currently reported he will tone down his recommendations to the tune of the times, as the corporation magnates think advisable. Thus the message to Congress will reveal that the Roosevelt of today is not the Roosevelt that has so frequently denounced the bad trusts, and the criminal rich, and the malefactors of great wealth.

"Oh, what a fall was there, my countrymen;
Then you, and I, and all of us fell down,
And bloody treason flourished over us."

ROBERT MILLER.

DR. HOLLEY'S NEW CHURCH.

Rev. J. B. Holley, for some time pastor of the First Baptist church in this city, and who has many friends here, but who for the past two years has been pastor of the Second Baptist church in Augusta, Ga., is rejoicing over the erection of a new church for his congregation, and the people of that city are rejoicing with him.

Rev. Holley is not only a fine speaker, but an eloquent worker, as has been proven that through his efforts he has raised more than $15,000 for a handsome new church for his congregation in Augusta.

The people of the Second Baptist church of Augusta evidently appreciate their pastor for what he has accomplished there, for, in addition to increasing his salary, the congregation recently voted that himself and wife should have a trip both to the State convention in Valdosta and the Southern Baptist convention, which will be held in May of the coming year, at the expense of the church.

The Augusta Chronicle of recent date has the following to say regarding the new church and its pastor:

"Congratulations are extended today to the pastor and congregation of the Second Baptist church, which holds its opening services in its new edifice. This is one of the smaller congregations of the city, but there are few if any more energetic and progressive. Especially since the coming of its new pastor, Rev. J. B. Holley, has it forged steadily to the front, and this morning enters formally a structure that is creditable not only to this congregation but the city generally which possesses many church edifices. The building represents an outlay of fifteen thousand dollars and has been built within the past eight months, though preliminary preparations had been under way for some months before actual work begun. It is a handsome pressed brick structure on Kollock street and is architecturally imposing within and without."

Gov. Folk, in his speech at the Jamestown Exposition on Missouri day, hit the stand patters on a sore spot when he said: "A tariff deliberately designed to create monopoly and to give a few people the right to prey upon the rest of the people is prohibited by the moral law—the law of conscience."

It has ceased to be the fashion to jest about "bargain-hunters." Unhappy is the lot of that husband nowadays whose wife is not a bargain hunter.

CORNISH DIALECT.

Some Quaint Terms That Are Common Among the Natives.

"A hitched my foot in the sconce and knacked my nuddick, and A wadn't able to clunky for a fortnight."

Readers of dialect tales will probably take it for granted that this sentence is Scotch. It is, however, Cornish and, being interpreted, means, "I caught my foot in the pavement and struck the nape of my neck, and I was not able to swallow for a fortnight."

There are some quaint terms common in Cornwall which have a pleasing savor of their own. The phrase "my dear"—prolonged to two syllables—is not, for instance, any indication of especial affection. It is a common form of address to either man or woman. So also, though with rather more discrimination in its use, is "my dear life."

A young child is mentioned in terms of endearment as "my 'ansome" or "tender dear" or even "tender worm." "Son" and "sonny" are used without the least relation to the age or sex of the person addressed. A son may sometimes be heard speaking to his own father as "my son" or a husband calling his wife "sonny."

"Young" means simply unmarried. A bachelor of eighty is "a young man." Of a bride still in her teens it was said that she was "a pretty lot better looking than when she was young." An old person is not simply old. He is "old ancient." Several New England localisms are found in Cornish speech, as "cricket" for a small stool, "chores" for household jobs and "dowdy" for pudding, though in America the latter word survives only as part of "pandowdy," the delicious deep spiced apple pie of country housewives.

A Cornish anecdote relates that a small boy left at home to supervise the family dinner while the rest of the household were at church, having, like King Alfred, neglected his duty and allowed the fig pudding to scorch, in his dismay ran to the church and from the doorway made signs to the housewife to come forth. She indignantly signed him to wait, which for a time he did, but at length, becoming impatient, cried aloud in reply to her further winks and grimaces, to the scandal of the startled congregation:

"Yiew may winky and skrinky as long as yiew du plase, but the figgy dowdy is burnt gin the crock!"—Liverpool Mercury.

OUR BRAINS ARE DOUBLE.

But Only One of Them Is Used to Think With.

Man has a pair of brains just as he has a pair of eyes and a pair of ears, declares Dr. William Hanna Thomson in Everybody's. But, asserts Dr. Thomson, only one of our two brains is used to think with. He continues:

"When we come into this world we have a pair of quite thoughtless brains and nothing more. To become intelligent beings we must acquire a whole host of mental faculties and endowments, not one of which does a human being bring with him at birth. No one was ever born speaking English nor any other language. No newly born babe knows anything by sight nor by any other sense. Every kind of knowledge has to be gained by personal education. But only recently have we found that this education necessitates the creation of a local anatomical change in brain matter to make it the special seat for that 'accomplishment.' Thus no one can become a skilled violin player until by long fashioning he has at last made a violin playing place in his cerebrum.

"But all this brain fashioning takes so much time and trouble that for mere economy of labor, as one hemisphere will do all that is necessary, the individual spends his efforts on one of them only. As both hemispheres are equally good for this purpose, which of the two he will educate depends on which one he begins with. This is settled for him when as a child he begins all his training by the hand that he then most easily uses; hence it is that all the speech centers and all the knowing and educated places are to be found only in the left hemisphere of the right handed and in the right hemisphere of the left handed."

The Landlady's Mistake.

On her first night at the seaside lodgings the visitor found it incredible it seemed, for the landlady had appeared a neat, cleanly, cautious body. But as the lady visitor knew little of her landlady and nothing of her predecessor in the apartment she decided to mention the matter at breakfast. "I found something in my bedroom," she began, and the landlady interrupted: "Then you must have brought it with you!" "I am quite sure I didn't," said the visitor, "for I counted all mine before I left home. But if you insist that this sovereign is mine, of course"—London Chronicle.

Not Honestly.

"Have you ever been in jail before?" demanded the judge.

"No, your honor, honestly, never!"

"Of course you haven't honestly. Few men get there that way."—Kansas City Independent.

TENNESSEEAN SUICIDES.

After Leaving Johns Hopkins Hospital Man Takes His Life.

Washington, Nov. 14.—George Ewell, of Dyer Lodge, Tenn., committed suicide in a Pennsylvania railroad cab here Tuesday. He had just been discharged as a patient at the John Hopkins hospital at Baltimore. He is thought to have been on his way home but at the station he entered a cab, stopped to buy a pistol and shot himself in the head as the cab was passing Pennsylvania avenue and Tenth street northwest.

He carried a ticket of admission, made out for himself, for the Trenton, N. J., interstate fair, several New York business cards and a note to notify his wife and seven-year-old daughter in Tennessee in case of his death.

BAKED 70 MILES OF PIES.

Remarkable Record of Miss McDonald, a Boston Pastry Cook.

Boston, Mass., Nov. 14.—"Concentrate your mind on the oven," says Miss Teresa McDonald, in explaining the wonders of her art in her pastry cooking. She is just celebrating her gold anniversary as a cook, and owns to her proud record of 394,000 pies baked in forty years at one restaurant besides scores of other dainties. If all her pies were laid out in a row, they would reach seventy miles.

She has made 2,000,000 doughnuts in twenty-seven years and 788,400 puddings.

Alabama Firm Fails.

Selma, Ala., Nov. 14.—The Gary Grocery company, one of the largest wholesale firms in central Alabama, closed their doors Tuesday afternoon after they had been declared bankrupt by Judge Tomlinson in the U. S. district court. E. Lamar was appointed receiver for the firm. Liabilities are estimated at more than $100,000. Assets are as yet unknown. Bad collections are given as the cause of the failure.

Attacked by Night Riders.

Clarksville, Tenn., Nov. 14.—Four masked men attacked J. M. Wade and two sons, near Guthrie, Ky., Tuesday night, and ordered them to leave within forty-eight hours. Wade raised a crop of tobacco, but had not joined the association. The men held a revolver over him while one scourged him with a stick. His sons, Thomas and Claud, were struck several times.

Narrow Escape of Actors.

Gallipolis, O., Nov. 13.—A log raft ran into the show boat carrying the Bryan Stock company six miles above this city Monday night and sunk it. The company of twelve members narrowly escaped from drowning, but by heroic efforts managed to reach shore. The raftsmen were arrested and in jail at Point Pleasant, W. Va.

Not Run by an Irishman.

When a French chauffeur brought an imported machine to the repair shop one of the mechanics became interested in the ingenious speed indicator which records the distance covered by electric system.

"It's a nice one," remarked the man. "But it would take a Frenchman to read it."

"To read it," exclaimed the chauffeur. "It was never meant to be run by an Irishman."—New York Times.

FURIOUS ITCHING HUMOR ON CHILD

Bleeding Sores Covered Her Whole Body After an Attack of Measles —Nursed Every Night for Three Weeks—Nothing Helped Her.

THEN CUTICURA MAKES COMPLETE CURE IN 5 DAYS

"It is in my opinion my duty to join those who praise the Cuticura Remedies. After my granddaughter of about seven years had been cured of the measles, she was attacked about a fortnight later by a furious, itching and painful eruption all over her body, especially the upper part of it, forming watery and bleeding sores, especially under the arms, of considerable size. She suffered a great deal and for three weeks we nursed her every night, using all the remedies we could think of. Nothing would help. We then remembered having heard so much about Cuticura Remedies. We sent for them and after twenty-four hours we noted considerable improvement, and, after using only one complete set of the Cuticura Remedies, in five consecutive days the little one, much to our joy, had been entirely cured, and has been well for a long time. Mrs. F. Ruefenacht, R. F. D. 3, Bakersfield, Cal., June 25 and July 20, 1906."

HUMOR ON FACE

Cured by Cuticura Remedies No Return in 20 Years.

"My son, when a lad of sixteen, was troubled with humor on his face and after using Cuticura Remedies he was freed from every humor and has continued so to the present time after twenty years have passed. Your Cuticura Soap has been used in my family for several years and I have faith in the Cuticura Remedies. A. H. Smith, Marion, Me., Dec. 1, 1905."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults, consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Mailed Free, Booklet on Skin Humors

A FLOATING SNAIL.

Peculiar Ways of This Wonderful Little Creature.

There is a small snail which is so fond of the sea that it never comes to land, and it builds such a capital boat for itself and its eggs that while large ships are sinking and steamers are unable to face the storm it tosses about in perfect safety.

The little snail is of a violet color and is therefore called janthina. It has a small shell, and there projects from the upper part of the body a long tongue-like piece of flesh. This is the raft, and it is built upon most scientific principles, for it has compartments in it for air. It is broad and the air compartments are underneath, so that it cannot capsize.

Moreover, the snail knows how to stow away its cargo, for the oldest eggs and those which hatch the soonest are placed in the center and the lightest and newest on the sides of the raft. The janthina fills its own air compartments by getting a globule of air underneath its foot. The body is then curved downward beneath the raft, and the head being tilted on one side the air rushes up and fills the spaces. It feeds on a beautiful little jellyfish, which has a flat, raftlike form with a pretty little sail upon it, and they congregate in multitudes when the sea is calm.

Sometimes specimens are washed upon the northwestern coast of France, and when they are touched they give out a violet dye.

LIQUOR IN NORWAY.

Laws by Which the Sale of Intoxicants Is Controlled.

The Samlag system in Norway gives power to municipalities to grant all the retail spirit licenses which it deems necessary to a company which would bind itself to carry on the traffic in the interests of the community, with a fixed annual return of not more than 5 per cent on its paid up capital. In establishing the system the question of compensation does not appear to have presented much difficulty. When the Samlag was introduced two kinds of licenses were in existence—first, those granted annually or for a term not exceeding five years, and, second, privileged licenses, granted for the life of the licensee. In the case of the first no compensation whatever was paid to those dispossessed of their licenses. In regard to the latter compensation was granted in the form of an annuity equal to the average yearly profits for the three years preceding the suppression of the license.

With these provisions the aims and principles of the Samlag are summarized as follows: The elimination of private profit and securing the monopoly value for the public, insuring highest quality of liquors sold, the reduction of the number of licenses, the easy enforcement of the law, the destruction of the power of the spirit trade and the furtherance of all progressive measures of reform.—New York Herald.

Not Man's Work.

Moonlight and springtime moods all to the contrary, the fact remains that marriage is not a man's work, but one of his dearest delusions, from which he parts begrudgingly. Moreover, it is not even necessary to him in the accomplishment of those things which are his work. It is generally no more than his dream of prolonging through years a humanly improbable condition. Happiness as a husband and father has always been his scarcely whispered prayer, his dearest secret hope, toward which all his idealism yearns. That numerous other and very potent motives enter into men's hearts is not in the least overlooked. It is only claimed that to the average man his future marriage is little more than a very beautiful dream.—Anna A. Rogers in Atlantic.

A Strenuous Hint.

It was growing very late, but the young man in the parlor scene showed no signs of making a home run.

"You evidently have a very vivid imagination, Mr. Borem," said the dear girl as she made an unsuccessful attempt to strangle a yawn.

"Why do you think so?" queried the unsuspecting Borem.

"I thought perhaps you imagined yourself in the arctic regions, where the nights are six months long," she explained.

And thirty seconds later he had faded into the glumpsome gloom.—Chicago News.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Professor Child's Views.

Boston and Cambridge people of an earlier day remember well Professor Child of Harvard, a scholar who was likewise a live man. They tell with great gusto a story about his lecture attention to city politics. Professor Child always attended to his duties as a citizen of Cambridge. One day he went to a ward meeting at which a boss began to put forth some of his warped ideas. The college professor was speedily on his feet and scathingly denounced the boss and his methods. After the meeting was over the good-natured boss, just to show that he bore no ill will, met the scholar on the stairs and, genially handing over a cigar, said, "Have a smoke, professor?" His antagonist straightened up, took the cigar and said with great dignity, "Yes, I'll match you in any of your lesser vices!"—Boston Herald.

Didn't Get a Patent.

Among the strange applications which reach the patent office one filed some years ago was most extraordinary, it being a petition for a patent for an ant guard which consisted in merely drawing a chalk mark around a table or other place by which it was claimed the approach of ants was stopped. It seems that chalk makes an ant's legs slip as soaping a track prevents a railway engine from starting. The petition was novel and caused considerable amusement. The application however, was refused on the ground that there was nothing new in the invention, that chalk had been used for such purposes before and that such ideas were not patentable.
